- [Portfolio](https://iamkartikey.netlify.app/) | <https://iamkartikey.netlify.app/>

An ambitious person with extensive knowledge of programming and web development tools I can create websites using React Framework or make ready-to-go websites that show on google. With my background in BCA and interest in self-learning, I can understand code and fix bugs in them. With the growing future, I am also updating myself with new technologies like NextJs.

## EXPERIENCE

- 11/2022 - 12/2022

Internship – Yougetplaced – Online Training & Internship in Web Development

  - Created a real-time website like Stack Overflow using MERN Stack
  - I completed a task to make the website responsive.
  - Learned to use React Hooks component and deploy our project on Heroku and Netlify.
- 06/2018 - 01/2019

Course cum Internship - RSM Digital Marketing – Ghaziabad

  - Created landing page with WordPress and Wix platforms.
  - Monitor and manage Ads Campaigns in Google Ads.
  - Managed SEO onpage & offpage | Optimizing Images & Keywords.

## PERSONAL PROJECTS

- [StackOverflow-Clone](#) | [Live](#)

[\[Mongo DB, Express, React, Node\]](#)

  - It's a Question/Answering Website with features like Signup, Login and Logout and all the data is stored in the backend and fetched from Mongo DB.
  - We used React to make the frontend of our website and at the backend, we connected NodeJS with MongoDB and used Express as a middleware to fetch and store data and make a RESTful API.
- [Spotify-Clone](#) | [Live](#)

[\[HTML, CSS, JS\]](#)

  - It's a digital music service that gives access to songs online. The Basic function includes playing music changing the previous and next or selecting from the list.
- [Cineplex \(BCA Final Year Project\)](#)

[\[HTML, CSS, JavaScript, Java, JSP\] NetBeans](#)

  - It is an online movie ticket booking system website to buy cinema tickets. It will automate the reservation of tickets and enquiries about the availability of tickets. It provides movie reviews of current and upcoming movies.
